

To Whom it may concern. I am a rural mail carrier in Kane Pa. I listen to the xm radio every day because local stations do not have quality programing and I cannot receive any other signals. The local stations fade out due to weak signal strength. With xm I can listen to what I want when I want and always receive quality sound and music. If I want it and it is available I should be able to listen to. I pay for it and I want it. Please let xm continue to broadcast music, weather, news and sports.

thank you
Richard Putnam
